

TimeControl® Industrial 8

Industrial use Timesheet for

When collecting data from the field in industrial or heavy construction situations, time is of the essence. HMS Software, the makers of the TimeControl timesheet system have created field data collection software specifically for industrial use. **TimeControl Industrial** is designed to allow a single system to collect timesheets for **both** back-office personnel and personnel in the field and to also collect Material, Equipment usage values and even production values for industrial situations. As with all of TimeControl's editions, this version links with both Project Management systems like Primavera or Microsoft Project and Finance systems for billing, auditing, project tracking and payroll!

Crew Timesheet Entry

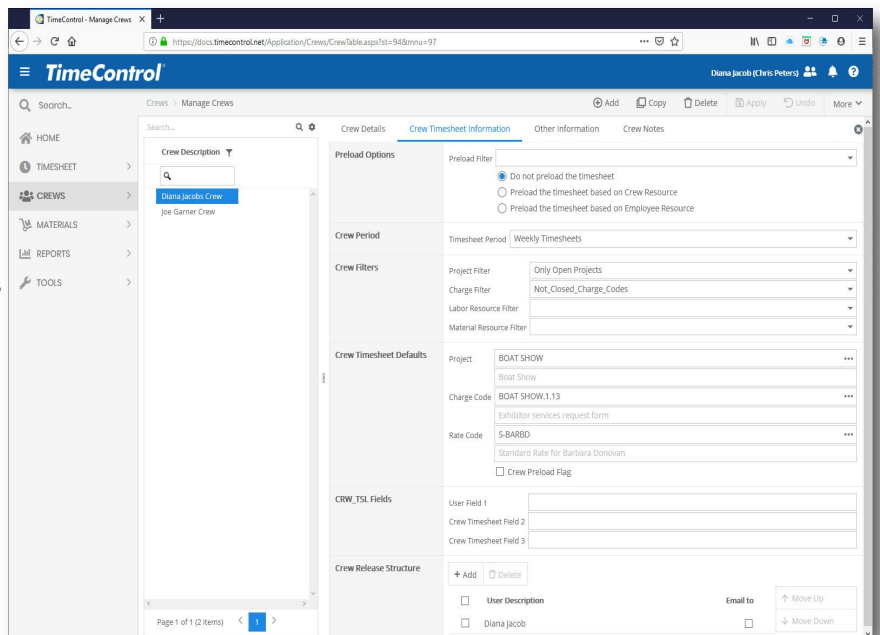

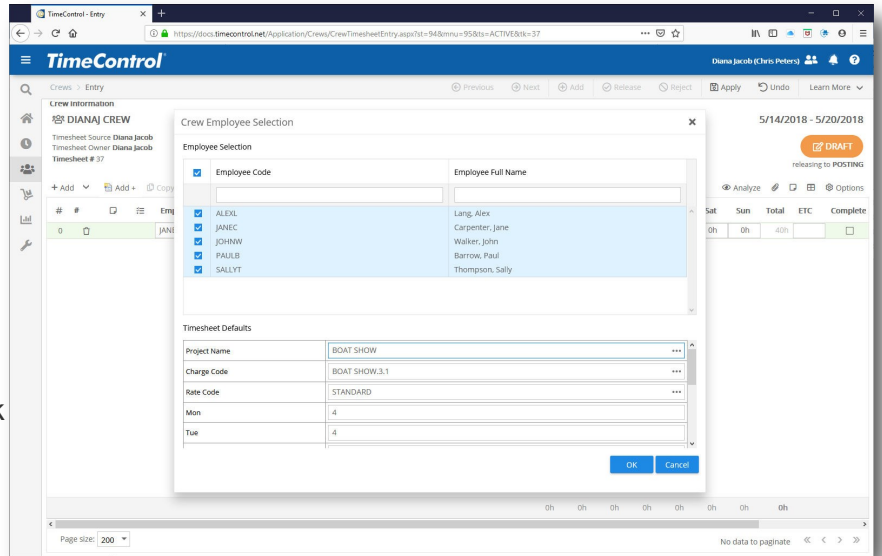

Aside from the weekly timesheet that is designed for back office workers, **TimeControl Industrial's** Crew Entry interface allows crews to be defined and then their time entered for the entire crew at once. Blank timesheets can be carried by the foreman or supervisor and the timesheet for the entire crew is entered at one time. The Crew Entry timesheet can be done each day, each shift or for an whole week at a time.

Material/Equipment Entry

TimeControl Industrial includes a Material / Equipment / Production entry module. When working in an industrial situation there is more than just labor data to collect. This module allows entries of resources such as materials, equipment, rentals, costs or production values to be entered and tracked. **TimeControl Industrial** includes specific rates for non-labor entries and a non-labor resource type to track any type of resource, not just hours.

Complex Rates

TimeControl Industrial includes a completely new approach to rate management for people, materials and equipment. The basic Rate system which was already revolutionary in the classic versions of TimeControl, is extended in TimeControl Industrial to allow for the complex rates that are often found in industrial situations. This includes escalated rates, rates which must support premiums for certain kinds of work and more. Literally millions of possible rate combinations can be supported.

the field and the back office

Employee Code	Employee Full Name	Project Name	Project Description	Charge Code	Charge Description	Rate Code	Rate Description
SALLYT	Thompson, Sally	BOAT SHOW	Boat Show	BOAT SHOW.1.13	Exhibitor services request form	S-SALLYT	Standard
ALEXL	Lang, Alex	BOAT SHOW	Boat Show	BOAT SHOW.1.13	Exhibitor services request form	STANDARD	Standard
JANEC	Carpenter, Jane	BOAT SHOW	Boat Show	BOAT SHOW.1.13	Exhibitor services request form	STANDARD	Standard
JOHNW	Walker, John	BOAT SHOW	Boat Show	BOAT SHOW.1.13	Exhibitor services request form	STANDARD	Standard

TimeControl Classic features

TimeControl Industrial includes all the features you've come to know from the classic editions of *TimeControl* including the weekly timesheet for back-office users, unlimited rates per employee, customizable reporting, automated business rules during approvals and tremendous flexibility.

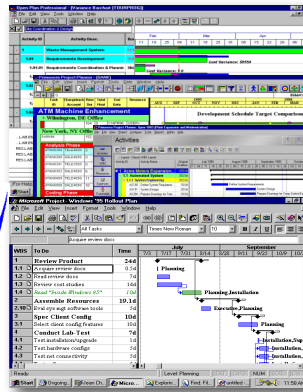

Links to Project Management

TimeControl includes direct links to project management systems such as Microsoft Project and Project Server, Oracle Primavera, Deltek's Open Plan, and Cobra.

Integrating with a project management system drastically reduces timesheet errors as time can only be charged against valid tasks.

Hours, costs and progress are returned from *TimeControl* directly to the project management.

Charge Code	Charge Description	Rate Code	Mon	Tue	Wed	Thu	Fri	Sat	Sun	Total	ETC	Complete
POA8.11	Technical Documentation	S-GAILR			4h	4h	2h	10h	40h			
POA8.12	Reference Docs	S-GAILR						0h	160h			
POA8.13	Training Materials	S-GAILR			20:00h	2h	4h	8:00h	120h			
POA8.2	Design Interface	S-GAILR						0h	120h			
POA8.3	Design Reports	S-GAILR						0h	160h			
POA8.4	Design Security	S-GAILR						0h	40h			
POA8.6	Code security structure	S-GAILR						0h	160h			
POA8.7	Code interface structure	S-GAILR						0h	40h			

Links to Finance Systems

TimeControl also links to virtually any Finance, Billing, HR or Payroll system or service such as Microsoft Dynamics, ADP,

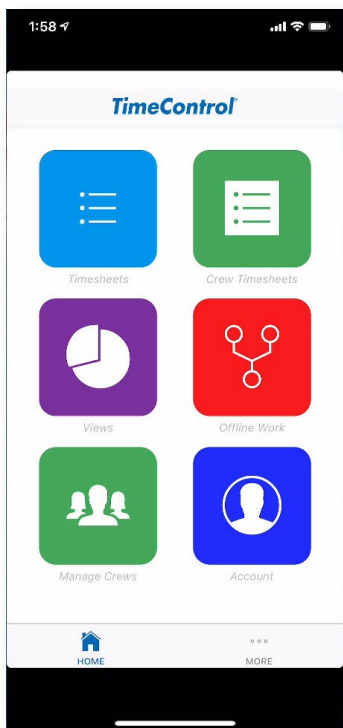

PeopleSoft and countless others. *TimeControl's* batch tracking of any exported data ensures that it will not be exported twice inadvertently.

Our fully auditable adjustment functionality and an ability to close previous periods from adjustments, allows *TimeControl* data to be accepted by the Finance system with confidence.

The auditable nature of *TimeControl* means you don't need to worry about reconciling the data from multiple timesheet systems or multiple sources.

The TimeControl Mobile App

The TimeControl Mobile App is a free App available from Google Play for Android devices and the Apple Store for iOS devices and allows users to manage their own timesheet or in *TimeControl* Industrial also create and edit Crew Timesheets as well as managing crews.,

TimeControl delivers a powerful, flexible, timesheet system specifically designed for project environments

Features

Industrial Features

- Crew timesheet entry
- Material/Equipment usage entry
- Extended Crew rate structure
- Extended Materials rate structure
- Integrate multiple remote sites
- Define crew lists
- Unique approval path for crews, material and equipment entry

Easy to use Interface

- Full web-based browser interface with multiple browsers supported
- TimeControl can be implemented within a SharePoint interface or a Microsoft Project Web Access interface
- Scalable user profiles facilitates use for data entry users yet provides full functionality for administrators
- Multilingual
- Unlimited charge codes displayed in simple, hierarchical drop-down lists
- Unlimited free-form notes for each line item and each timesheet
- E-mail-enabled. E-mail messages sent for system notices such as rejected timesheets or missing timesheets
- Scheduleable E-mail notification for missing or unapproved timesheets.
- Predefined timesheets based on resource assignments from the project management system or by user input
- TimeControl Mobile App included at no additional cost for Android and iOS phones and tablets

Robust Architecture

- Open database architecture; support for Oracle, Microsoft SQL Server, Sybase and MySQL databases
- N-tier architecture makes system scaleable for 10 to 100,000 users
- Unlimited rate codes per employee
- Field-level security. Make any field visible, value read-only, or invisible
- Complete redefinition of every field label

- Complete auditability of timesheet data
- User-defined fields on every table
- Add pop-up data validation for each user-defined field
- Allows charges to be linked to a specific project or project-independent
- Multiple overhead charge types
- Filter charge codes, projects and rates visible to any employee

Web Interface

- MyTimeControl™ home page dashboard gives extensive and customizable dashboard information to employees

Approval Process

- HMS's unique *Matrix Approval Process for Labor Actuals™*
- Unlimited automatic Validation Rules are user defineable, flexible and can be applied globally or to any group or even an individual
- Unlimited manual validation levels in which each employee can have a unique approval routing
- Project Managers or Account Managers can preview and redistribute hours prior to linking with a project management system or exporting to Finance

Links to Project Management

- Direct integration with popular project management systems such as Microsoft Project and Project Server, Oracle Primavera's P6, Hard Dollar's HD and Delttek's Open Plan and Cobra
- Supports multiple project management systems and multiple versions simultaneously
- Customizable import/export function to interface with virtually any finance or ERP system including SAP, Oracle, PeopleSoft and Microsoft Dynamics
- Interface can be stand alone or integrated directly into SharePoint, Microsoft Project Web Access

Time-off Request

- **TimeRequest™** module allows vacation, personal or other leave time to be requested
- TimeRequest allows multiple levels of approval
- TimeRequest automatically populates future timesheets with approved time off
- Administrators can pre-populate timesheet entries with events such as holidays

Flexible Reporting

- Excel-like reporting format allows output to any Windows-compliant printer or can be saved as Excel, XML or HTML files
- Reporting Wizards allow an unlimited number of reports to be created and saved for later use
- Unlimited levels of data selection, filtering and sorting
- Drill Down Analyzer provides instant ad-hoc analysis of data at any level

Expense Reports

- Users can enter non-labor costs on their timesheet
- Unlimited number of expense items per timesheet line item
- Expenses can be tracked back to a project management and/or finance system

Government Compliance

- Complies with requirements for DCAA, European Time Directives, R&D tax credits, FMLA, the California Wage Laws and Sarbanes-Oxley

Subscribe or purchase

- Subscribe to **TimeControl Industrial Online™**, our hosted timesheet solution in the cloud or;
- Purchase **TimeControl Industrial** for an on-premises installation
