# Existing scenario 1

# Existing scenario 2

# With TimeControl part 1

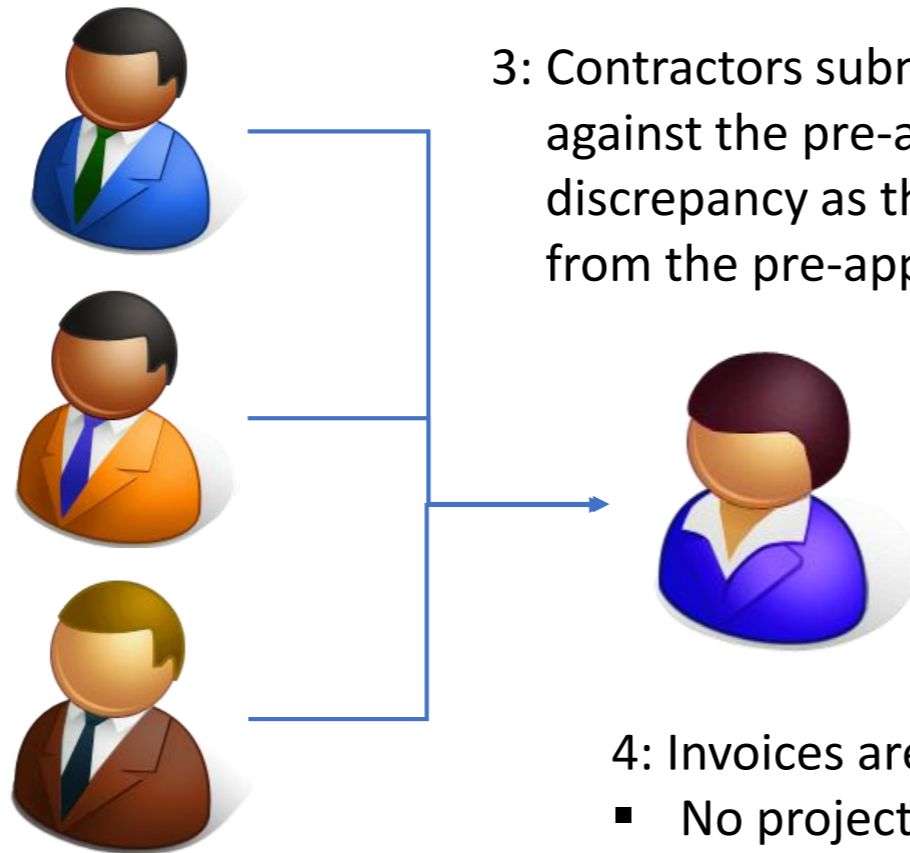

1: Project managers approve all contractor time along with direct staff in TimeControl

2: Contractors are provided with an extract or a report of hours that are already approved in TimeControl

# With TimeControl part 2

3: Contractors submit invoices and the totals are checked against the pre-approved hours. There should be no discrepancy as the invoice should have been created from the pre-approved hours report already.

4: Invoices are immediately approved.  
▪ No project managers need be interrupted

Typical invoice approval time: 1-3 days!
