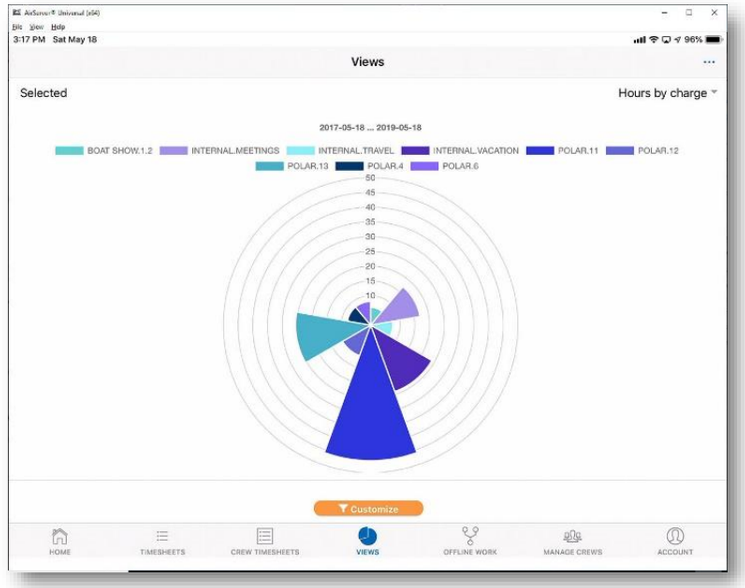
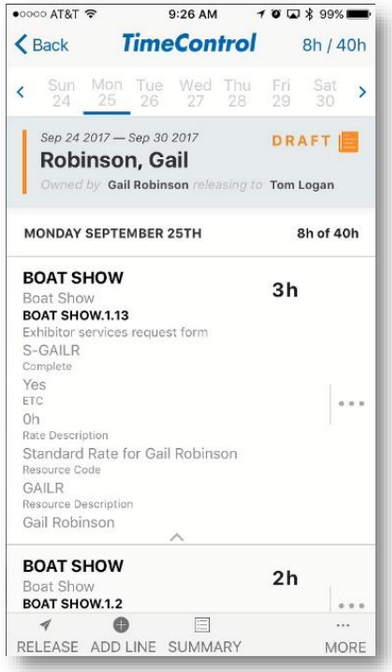
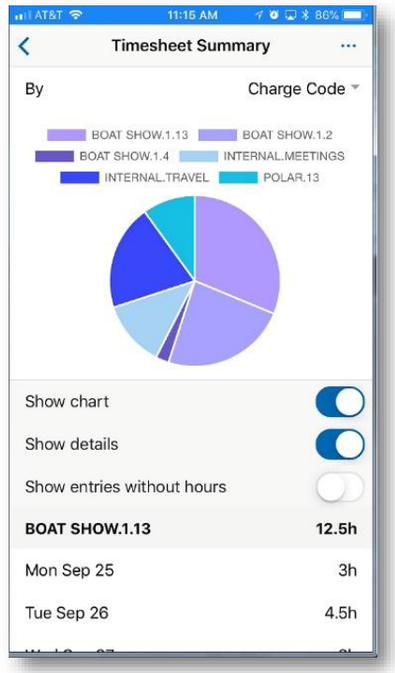
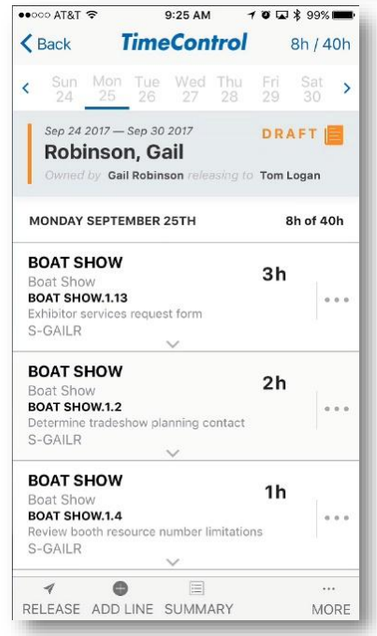
TIMECONTROL MOBILE APP

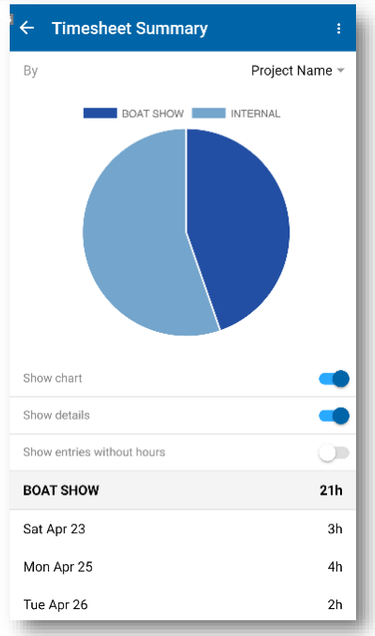
- A free Mobile App supporting Android and Apple devices
- Links to your instance of TimeControl











www.timecontrol.com

ADVANTAGES OF USING TIMECONTROL

- Link with both Primavera Pro and Primavera EPPM
  TimeControl includes both a database-to-database link and a Web Services link to both Primavera EPPM and Primavera Professional.
- Auditable Historical data
  TimeControl includes historical data on all timesheet data regardless of what changes or deletions were made in the planning system. This means that if a task is deleted or moved, the actuals are not changed
- Track controllable edits to posted timesheet data
  TimeControl allows audited Debit/Credit changes to previous timesheets which are tracked as changes to the original timesheet
- Automated business validation rules
  TimeControl includes unlimited automated validation Rules which allows an organization to define what makes an acceptable timesheet. This can include simple rules such as “no more than 24 hours per day” or complex rules such as “no overtime unless you are a wage employee and have done at least 8 hours of regular time today”.

ADVANTAGES OF USING TIMECONTROL

- Unlimited Rates
  TimeControl allows an unlimited number of rates per employee. Each rate maintains nine values. Two of these values are typically used for internal or actual cost vs. external or billing cost.
- Project and Non-project time
  TimeControl can track both project items from the scheduling system and non-project items such as overhead types. There is no limit to the number of project or non-project items that can be included.
- Unlimited user-defined fields
  TimeControl allows an unlimited number of user defined fields to be added to any table (such as the employee list or task items).
- Multilingual
  TimeControl includes a multi-lingual client which includes many languages by default and a module to add your own language translations.
- Expense Reporting
  TimeControl tracks non-labor entries such as expense reports

ADVANTAGES OF USING TIMECONTROL

- DCAA Compliance
  TimeControl is DCAA (Defense Contract Audit Agency) compliant
- Sarbanes-Oxley Compliance
  TimeControl is a powerful tool for Sarbanes-Oxley compliance in order to conform to SEC rules for internal software development and deployment for any company publicly traded in the US
- Other Government requirements
  TimeControl complies also with numerous government standards including the "European Work Rules", FMLAs and "California Work Rules" along with many others
- Extensive Approvals
  TimeControl supports multiple levels of manual approval with each level and the path for each employee defineable at the employee level
- Matrix Approvals
  TimeControl supports HMS Software's unique "Matrix Approval Process for Labor Actuals™" which allows timesheet data to be approved by both line or resource managers and projects managers

ADVANTAGES OF USING TIMECONTROL

- Resource assignment options
  TimeControl supports individual, role and group resource identification. Timesheet data can be sent for an individual's resource code group multiple employees into one generic resource code
- Hierarchical display for high data volume
  TimeControl displays projects, rates and tasks in a hierarchical tree format. This allows support of a tremendous volume of data
- Link to invoicing
  TimeControl's financial-quality data is ideally suited for invoicing and TimeControl's Link module allows output to be sent to virtually any billing system or the billing module of any major Finance system
- Multiple project management system links
  TimeControl supports multiple project management links simultaneously. A project environment which includes both Primavera and Microsoft Project, for example, could be supported by TimeControl at the same time. End-users would simply see a list of tasks
